

## Wound Care Dressing Packs

### Delivering Continuity of Care...

We provide an all-in-one dressing change solution, in which you can have complete confidence... every time.

#### Value-Added Support

We offer a range of educational support materials that are specifically tailored to your exact requirements and trust guidelines.

#### ANTT

Helping to drive efficiency and control infection, our Emperor range of sterile dressing packs are specifically made to support an Aseptic Non-Touch Technique.

#### Range & Compliance

We provide a fully comprehensive range of dressing packs, so whether you're ordering from formulary guidance or otherwise, you're assured of leading brand quality for the consistent delivery of care.

#### Product Training

Either delivered online or in-person, we're committed to providing full-product training for you and your team.

#### Great Value

Cut your costs without compromising on patient care. On dressing packs alone, you can save up to 5% against other well-known brands\*.

#### Continuity of Supply

With a purpose-built distribution centre and on-site sterilisation facilities at our South Wales base, we're proud to supply vital products to hospitals, trusts and primary care providers nationwide.
